Special to The Courier.

Uniontown, March 3.—The grand jury will sit next Monday and more than 100 indictments will be heard. District Attorney Thomas H. Hudson has been working steadily on the cases that he will prosecute in behalf of the Commonwealth, and as the number is slightly larger than usual he has been exceptionally busy. There are three murder cases to come up at the March term of criminal court, those of George Doyle, who murdered Mrs. Jennie Walker of Hopwood on December 24; Clifford Holly, who killed Simon Donahue about two years ago at Uniontown and who was subsequently arrested in Kentucky; and John Brisco, alias Captain George, who is charged with the murder of John H. Smith, alias Olen Olen Shorty, on February 22 at River View coke works. Besides these three murder cases there are other important indictments, in addition to the usual string of minor charges.

There are six cases against George H. Proctor, alleged false pretenses. Proctor is said to have secured \$4,000 by dishonest representations. The 12 indictments against Wash Johnson of New Haven charging violation of the election laws will be tried at this term of court, as well as the cases alleging extortion on the part of Charles Wilson, constable in the Third Ward, Connellville. Two rape cases will be tried, one against Samuel Ernest and the other against John Ward.

Sebastian Tissue, charged with arson, and Charles Shofst, a member of the election board in Georges township No. 4, accused of violating the election law, will be given trials. The Connellville gambling cases will also come up at this term.

These are the principal cases that will come up at the March term of criminal court. A session of civil court will be held next week, and the two weeks following will be occupied with criminal cases. There are 25 cases to be tried the first week of civil court.

Kephart as administrator, alleging that they are heirs of the late Mrs. Bertha Smith.

The plaintiffs sue each of the defendant companies for \$250,000, the amount of policies issued on their warehouse in Broad Ford.

It is set forth in the statement that on March 13, 1906, the defendants issued the policies on 14,000 barrels of whisky in the Broad Ford warehouse. On November 19, 1905, the warehouse and its contents were destroyed by fire. The plaintiffs carried in different companies, insurance amounting to \$167,500. They assert that their loss by fire was \$169,711.32, and they sue for the full amount of the policies issued by the defendant companies.

McKeesport, March 3.—[Special.]—Friday morning a Baltimore & Ohio passenger train, from the east, in charge of Conductor Dennis Devine, arriving here at 9:26 o'clock, left a 17-year-old foreign girl named Susanina Siatoperev. She was given into the charge of Detective Fred J. Lamm, who took her first to the police station.

The girl had got on the train at Perryopolis, her home, and was crying. She had no money and said she had run away from home because her father beat and abused her, and she wanted to find a home and friends and work.

After investigating her case at the police station Detective Lamm took her to Mrs. Brown's intelligence office, where she at once found a good place and was put to work and will be kept under the charge of the police until her parents are heard from. She is a bright young girl.

### THE DEATH LIST GROWS.

Loss of Life in the Mississippi Tornado Will Greatly Exceed the First Estimates Sent Out Last Night.

Birmingham, Ala., March 3.—[Special.]—The estimated loss of life in last night's tornado and fire in Meridian, Miss., and vicinity is placed here at over 100, according to early morning estimates received over the railroad wire and from a message dated New Meridian. Communication is still being interrupted.

A reported Alabama Great Southern train which left Meridian two minutes before the cyclone struck the city arrived here in a battered condition, with windows smashed and the passengers in a state of terror, many being on their knees in prayer.

According to stories of the passengers the coaches rocked so violently when struck by the cyclone and that they remained on the rails was almost a miracle. A fast freight train is reported overturned near the wreck.

One messenger states that the work of rescue is being pursued amid horrible circumstances. There are no lists of the dead yet obtainable and rumors vary as to the casualties from forty to two hundred.

A message from New Orleans says that the loss of life at Meridian is underestimated as over 100 bodies have already been recovered.

### WRECK ON SHEEPSKIN.

And Connellville Division of B. & O. Delayed Traffic.

Train No. 51 did not arrive in Connellville until after 8 o'clock last evening. The delay was caused by an engine being off the track in the vicinity of Morgantown. The train could not be brought through owing to the lack of motive power at Morgantown.

Train No. 47 mixed things up yesterday afternoon on the Pittsburgh Division for passengers on train No. 15. No. 47 came in late over the Connellville Division and was closely followed by No. 15. The train's delay was occasioned by a breakdown of its engine and a freight engine was used to haul it through to Pittsburgh. No. 15 followed and it took nearly four hours to go from Connellville to the Smoky City. In nearly every block between this place and Pittsburgh the last train was held up. All the passengers for the West missed their connections and were wroth over it.

Kates was employed as a laborer by this firm and was working at the shaft of the Taylor Coal Company near Seagriffs, Maryland township, at the time of the explosion, November 13, last. Kates alleges that B. F. McNeill, a member of the contracting firm, ordered the men into the shaft to work about 7 o'clock that evening after they had finished for the day. When they entered the shaft he invited a stranger to go down into the mine with him. The stranger, whose name is unknown, is said to have carried a lighted torch, which ignited gas in the shaft and caused the explosion. Kates denies that he or his fellow laborers were aware that the mine was gaseous, but alleges that he McNeill was familiar with its condition. He declares that he was badly burned about the face and hand and remained in the hospital for several weeks. He was unable to work for some time after the accident occurred.

The second group, consisting of the boys, were placed in the auditorium. The exercises were carried out in a most impressive manner. The girls presented a play, "The Legend of the Red Rover," which was well received by the audience. The boys presented a play, "The Story of the Boy Who Cried Wolf," which was also well received. The exercises were concluded with a song, "The Song of the Senior Class," which was sung by the girls.

The next number was a well rendered musical selection by the orchestra, "The Legend of the Red Rover," by Miss Sara Belle Landon, the class reciter, Miss Florence Abram, class poetess, spoke of the many unpleasant features of school life. This was followed by a selection by the orchestra, "The Story of the Boy Who Cried Wolf," by Miss Mayno Kitchell, the class poetess, pictured the many bright features of school life. Miss Margaret Morrison, the class donor, presented each of her class mates with an article, suggestive to their future lives, prepared by the class prophet. In closing she thanked the audience for their kind attention and also the School Directors for the excellent opportunities afforded them in securing an education.

## LOSES FIRST FIGHT.

La Follette Contends Valiantly in Senate But Meets Defeat.

## MONOPOLY WAS HIS TARGET

Amendment to Indian Bill to Prevent Railroads from Gaining Control of Coal Lands Goes Down Because of Constitutional Objections.

Washington, March 3.—The senate has passed the bill providing for the settlement of the affairs of the five civilized tribes. Under the guise of considering the bill, the senate spent practically the entire day in discussion of the railroad question. The subject was raised by Mr. La Follette's proposed amendment to the Indian bill prohibiting railroad companies and their stockholders from acquiring the coal lands in Indian territory, and when the question was before the senate it held its place persistently until almost the close of the day's session. Notwithstanding Mr. La Follette has set in the senate for less than three months ago, the debate and occupied more time than any other senator. He contended that the prohibition contained in his amendment is necessary to prevent the railroads from controlling the coal business of Indian territory. He enlarged his remarks so as to cover other territory and thus give the debate a somewhat general scope. Several other senators, while expressing themselves in sympathy with the purpose of the amendment, raised constitutional objections to the provisions and considerable time was spent in discussing that phase of the question. Late in the day the La Follette amendment, together with all Indian-committee amendments, was laid on the table.

**Sympathy Awaits Nothing.**  
The bill has passed both the house and the senate, but as the senate amended it in many respects, it will now go into conference. It is a general bill for the adjustment of the affairs of the five civilized tribes upon their abandonment of their tribal organizations.  
When Mr. La Follette took the floor to reply to the speeches, he said that all the senators who had spoken had expressed sympathy with his motive, but had contended that his provision went too far in its application to the stockholders in railroads. "What will it avail," he asked, "if the railroads are cut out and their stockholders are allowed to own the coal lands?" He said that experience for 30 years in Pennsylvania and for 20 years in West Virginia had shown that such a course might result in the control of the mines by the roads. Appeals had been made to him to accept a modification of the amendment, but he could not see his way clear to do so for his experience had taught him that it was better to go down to defeat in support of a righteous measure than to compromise it in any way.

**Senator Knox Wanted to Know.**  
Mr. Knox asked whether under the amendment stock in a coal mine in Indian Territory inherited by a young man living in an outside state would revert to the United States and in reply Mr. La Follette said he thought that would be a legitimate conclusion, but he added the conviction that in no great emergency the right of just vindication should yield to the general welfare. He said that he did not desire to pass as a precedent, but he would make the prediction that unless congress addressed itself presently to dealing with the question of the control by centralized capital the country would soon be compelled to face the problem of government ownership in a way that would not be put aside.

In response to an inquiry from Mr. McComber, Mr. La Follette admitted the probability of the supreme court having some of the provisions as unconstitutional, but he added that he was anxious to at least permit the court an opportunity to pass on the question.

Mr. Bacon said that Mr. La Follette's object could be accomplished by a slight change and suggested a provision prohibiting "any person from having an interest in the coal lands for the benefit of a railroad." He thought that the substitution of this language for the prohibition put upon the stockholders of railroads would accomplish the desired result without rendering the provision unconstitutional.

**Equivalent to Confiscation.**  
Mr. Bacon suggested the objection that the amendment would accomplish the confiscation of the property of innocent owners in coal mines and Mr. Bacon replied that his amendment of the amendment would meet that difficulty.

In presenting the difficulty suggested by him, Mr. Knox said that he was in perfect sympathy with the object of the amendment adding that he believed the business of railroads should be confined to transportation.

Mr. Clark (Wyo.) moved to amend the house provision so as to make it read as follows: That all coal and asphalt lands whether leased or unleased shall be reserved from sale under this act until the existing leases for coal and asphalt lands shall have expired or until such time as may be otherwise provided by law.

**NEW ORDERS.**  
Train Crews Must Rest After 24 Hours Continuous Service.  
New orders have been issued by the officials of the Baltimore & Ohio Railroad Company concerning the number of hours continuous service and trainmen shall remain on duty without a rest. Again the men are required to remain on duty for four hours after which they must be relieved.

Had need of have resulted because of a crowded crew and it is because of this that the men are not to be allowed to work so long without resting. Sometimes following a period in which considerable time was lost the crew work long hours in order to make their checks larger. This is sometimes carried so far as to be done only because the men are so tired that they are likely to get to sleep any time. Twenty-four hours is a long day to work in this country and railroads to a test of eight hours.

The agreement of the employees with the company limits the number of continuous hours the men can be compelled to work and now the company has decided to be allowed to give.

All states at the funding point of loss than four hours will be considered in our service.

## GETS TEN YEARS.

Sentence imposed on Carrie Simpson, Negro Murderess.

Somerset, March 3.—Mrs. Carrie Simpson, the Pittsburgh negroess who shot and killed Jennie Friedland, clerk in the Howell postoffice, was sentenced by Judge F. J. Kooser to 10 years' imprisonment in the penitentiary Friday afternoon. Mrs. Simpson was convicted by a jury of murder of the first degree, but the verdict was set aside by the court.

When the case was again called at the December term of 1905, the defendant entered a plea of guilty, and Judge Kooser fixed the grade as murder of the second degree.

Judge Kooser accepted a plea of second degree murder for Pete Mendelick, a Slav, who killed a fellow countryman at Windsor, Pa., some months ago by striking him on the head with a bar of iron.

D. W. Ray, alias Trainer, of DuBois, convicted of horse stealing, was given five years in the penitentiary.

## A Birthday Party.

The tenth anniversary of the birth of Miss Helen Strub, daughter of Mr. and Mrs. A. A. Strub, was pleasantly celebrated yesterday afternoon at the Smith House. The friends of the little lady began gathering in the parlors at 3 o'clock and from that time until after 8 o'clock they made merry playing games and amusements of all sorts. At six o'clock dinner was served in the private dining room, which was gorgeously decorated for the occasion. The ruling colors were pink and green, and a Japanese effect was added to these colors by Japanese fans and umbrellas. Many little electric lights added to the brilliancy of the dining room.

Dr. T. S. Cartwright of Trinity Church, New Haven, came in while the festivities were at their height and the children gave him a hearty welcome. After the dinner he entered into their frolic and kept them in high glee until it was time for them to return to their homes. While the Doctor was present they gave vent to their enthusiasm by cheering lustily for any one the Doctor suggested. Miss Strub received many pretty remembrances. Those who attended were: Pauline Miller, Herman and Gretchen Huttlinger and Delores Clark of Scottsdale, Angela and Francis Stader, Jean and Cyrus Kennell, Helen Hood, Irene Pratt, Susan Madigan, Earl Shuman, Dot Turner, Junior Marshall, Helen and Elizabeth Strub.

Conhonor, Mrs. L. Hawk, Mrs. G. Hain, Mrs. J. Miller, Miss Sadio Hawk, Miss Lizzie Opperman, Miss Joanna Hyde, Miss Edith Klembish, Miss Agnes McWhiter and Miss Anna Klembish.

The presents were many and handsome and the guests all departed after having spent a very pleasant evening. Miss Millard's Card Party. Miss Anna Belle Millard was hostess at a very enjoyable card party held Friday evening at her home on Trevor street. Euchre was the game played, five tables being in use during the evening. At the close of the games the prizes were awarded to Miss Margaret Crossland, Miss Olive Welke and C. W. Kiefer. The decorations were carried out in pink and white carnations. At midnight cards were laid aside and the guests adjourned to the dining room, where an elegant luncheon was served, covers being laid for about 25. The out of town guest was Sherlock Enos of Pennsylvania.

Charming Card Party. One of the pretty social events of the season was a charmingly appointed card party given Friday evening by Mrs. D. K. Dillworth at her home on Washington avenue. Hearts was the game played, for which five tables were brought into use. The decorations were very pretty and attractive. Festoons of hearts and clusters of red carnations were used in decorating. The evening was a most enjoyable one. At the close of the games an elegant luncheon of 20 covers was served.

## Fancy Work Party.

Mrs. John Barnhart of Scottsdale and Mrs. A. C. Edwards of Broad Ford were the out-of-town guests present at a prettily appointed fancy work party given Friday afternoon by Mrs. David Long at her home on Seventh street, New Haven. ## UP TO THE COURT.

To Decide Number of Times Bailors May Be Fined.

It is now for the court to decide whether some rule shall be made that a violator of the Sunday law as Justice John N. Dawson, after two days of deliberation, has held Charles Bolles for court for seeing tobacco on Sunday although he pleaded guilty to one charge and paid a fine.

On Monday morning Justice M. D. Clifford of South Union made four informations against Bolles and two against his clerk. The separate information charged him with selling apples, tobacco, candy, etc. in violation of the Sunday closing law. He pleaded guilty and paid out fine for himself and another for his clerk but stood a hearing on the other. The hearing was held Tuesday and Magistrate Dawson gave his decision Thursday evening, holding the defendant for court on the tobacco selling charge and staying proceedings in the remaining cases until some action is taken by higher authority.

## IN INDUSTRIAL DEVELOPMENTS.

Frick Company Will Shortly Have Plants There Making Coke, a Uniontown Contracting Firm Having Limited Time to Finish Work.

One of the busiest places in Fayette county at the present time is in the valley near Hopwood where Cornish Brothers, Uniontown contractors, have nearly 500 men at work on contracts for the H. C. Frick Coke Company. At one place a slope is being driven through the Siler and other properties recently purchased by the company, with a view to opening up the coal under the Brownfield farm, owned by the Frick company. The slope will be about 1,750 feet long and an immense amount of dirt must be handled. At the same place the Cornish Brothers will build the foundation for the tipple, boiler house, engine house and other buildings. They are also making a 700 foot cut at the same place, the Gehlen says.

At the Crossland mines, only a short distance away, Cornish Brothers are also driving a 300 foot slope for the Frick company which will open up another body of coal that is to be operated at once. They will also build 20 ovens for the company and expect to have them ready in a very short time. All this work must be done within 90 days and a large force of men are working both day and night. The workmen are now under the hill twenty feet and have the fifth set of timbers up. The changes that are taking place in that community are very noticeable to the traveler over the old pike, as there has been but little business activity in that part of the valley for a long time.

Cornish Brothers who have charge of the work at Hopwood, have about completed their contract of building 70 ovens for the McKeesport Coal & Coke Company at Martin Station, along the Monongahela river. About the only thing to be done at that point is the building of a large retaining wall along the front of the coke yard, and this will be pushed to completion as rapidly as possible. The same firm also has the contract for the foundations of ten houses at the same coke plant, which, it is said, when fully equipped, will be one of the best and most up-to-date in the county.

In addition to the above there are also a number of other points where large numbers of men are employed in this county. It is said that during the coming spring and summer there will be quite a number of new works built in the southern part of the county and that at some of these already in operation there will be additional ovens built. Taken all in all, the industrial outlook for the county for the coming summer is exceedingly bright and one can look forward to a busy and profitable season.

## BROWNFIELD'S PARDON.

Is Expected Back Home at Fairchance in Short Time.

Owen R. Brownfield, whose pardon was recommended by the board at Harrisburg Wednesday, is expected to return to his home in Fairchance in a few days. The absence of Governor Pennypacker from Harrisburg has delayed his release temporarily, but the Governor was expected to return to the capital Friday when his signature will be secured. It is then only a matter of a short time until Mr. Brownfield is released.

Attorneys R. P. Hopwood and W. C. McKean, who argued for his pardon, returned to Uniontown Thursday evening and are receiving numerous congratulations on the success of their work, the result of which is received with general satisfaction.

Mr. McKean spoke before the board for 15 minutes, after which he was followed by Mr. Hopwood. Plans are usually limited to 15 minutes, but in this case the board kindly allowed a few minutes additional time, and before the arguments were completed it became evident from the nature of the questions asked by the board and the satisfactory answers given that a recommendation for a pardon would be secured, and the action of the board was prompt and unanimous.

It was set forth in the application that the health of Mr. Brownfield has been greatly impaired and a continuation of his confinement to the end of the term for which he was sentenced would endanger his life. Testimonies of Drs. Peter P. Smith of Uniontown, S. E. Hibbs, Fairchance, and W. S. Langfitt, Allegheny, were offered in support of this. Other reasons offered were:

The demands and requirements of the law have been fully satisfied in this case because: (a) Previous to the offense for which the defendant was sentenced his life was honorable and upright.

(b) He admitted his guilt and entered his plea without requiring proof or the finding of an indictment against him.

(c) Before prosecution he made full restitution, with interest, of all the money taken by him, and has since paid all costs incurred by the Commonwealth in his prosecution.

In addition to Attorneys McKean and Hopwood, Attorney L. R. Brownfield and Dr. P. E. Smith were also present.

## WALSH IS ARRESTED.

Chicago Bank President Accused of Making False Reports.

### ALSO OF MISAPPLYING FUNDS

Failure of Chicago National Bank Results in Criminal Charges by Government Against President—Defendant Denies Allegations.

Chicago, March 3.—John R. Walsh, president of the defunct Chicago National bank, which closed Dec. 15, 1935, has been taken into custody on a federal warrant which charges him with violation of the national banking laws in making false returns to the comptroller of the currency and that he converted to his own use without proper authority funds of the bank amounting to \$2,000,000. He was released after giving bonds to the amount of \$50,000.

The complaint alleges in specific terms that on the 18th day of November, 1935, the Chicago National bank, of which Mr. Walsh was president, transmitted to the comptroller of the currency a statement of the financial condition of the bank at the close of business on May 29. In this statement the said John R. Walsh unlawfully made certain false entries to the effect that at the close of business of the 18th day of November the amount of loans and discounts of the said banking association on which the officers and directors thereof were then liable either as payor or endorser, was \$246,000, whereas in truth the amount of such loans and discounts was \$5,000,000; and another false entry to the effect that the amount of loans and discounts of the said association of which the officers and directors were not liable as payors or endorsers was \$10,653,225, whereas in truth the amount of such loans and discounts on which officers and directors were not liable was much smaller, namely, \$7,590,000.

Another section of the complaint alleges that Walsh had in his possession funds and moneys of the bank amounting to \$3,000,000 "with intent to defraud and defraud" the bank. The \$5,000,000 mentioned in this section of the complaint is, however, identical with the amount specified as being loaned to officers of the bank. It is further alleged that John R. Walsh and John M. Smyth and William Best, directors of the bank, "and other persons too numerous to mention" unlawfully misapplied this money by converting it to the personal and private use of John R. Walsh.

S. O. Wallace Charged With Embezzlement of \$20,000 from Employers.

Chicago, March 3.—Samuel O. Wallace, president of the United Engineering & Foundry company of Vandergrift, Pa., is under arrest here on a charge of having embezzled more than \$20,000 belonging to the firm. The complaint in this case was made by R. W. Tener, secretary and treasurer of the company. A charge of conspiracy against Wallace is also made by Tener, and three other men said to have been indicted along with Wallace by the grand jury of Westmoreland county, Pa., are being sought.

Wallace admitted his identity, but declined to discuss his case.

Hinton, W. Va., March 3.—Because of failure of air brakes to work, two engines and 14 loaded coal cars ran away for a distance of three miles on the Loop Creek branch of the Chesapeake & Ohio railroad, finally crashing into 20 empty cars at Thurmond, wrecking 13 coal cars, demolishing two locomotives and killing Engineer I. A. Perkins. The others of the crew jumped and escaped with severe bruises.

## DUN'S REVIEW OF TRADE

Summary of Business Conditions Throughout the Country.

New York, March 3.—Dun's weekly review of trade says today: Prospects are most encouraging for continued activity in the commercial world. Seasonable merchandise is going into consumption more freely, and preparations for a large spring trade keep shipping departments busy. Mercantile collections are still somewhat irregular, although satisfactory on the whole, especially in view of the firm money market. Manufacturing plants report little idle machinery except at northwestern flour mills, where the heavy output has exceeded demands for a time.

Probably the best news of the week was the prompt response to President Roosevelt's public letter to the coal-mining coal interests. Another favorable report estimated that contemplated new buildings in this city alone would consume 200,000 tons of structural steel, while most prosperity is evinced by the various state reports showing noteworthy gains in savings bank deposits. Dividend distributions in March will also largely exceed last year's.

No setback has occurred in the iron and steel industry, mills and furnaces operating at the limit of capacity without overhauling orders which came forward more rapidly than they can be filled.

### RED ROCKERS WIN

B. & O. AGREES TO CEASE DISCRIMINATION AGAINST INDEPENDENT COAL CO.

Clarksburg, W. Va., March 3.—In the midst of the trial in the United States court here of the suit of the Redrock Fuel company against the Baltimore & Ohio Railroad company to enforce a recent order by the interstate commerce commission directing the railroad company to cease discriminating against the Redrock Fuel company, an agreement was reached at the instance of Second Vice President Hugh Bond, Jr., of the railroad company between the litigants and the suit was practically withdrawn.

The terms of the agreement are: The railroad company to provide the Redrock Fuel company with a connection at their plant near Buckhannon, this state, at once; grant the Fairmont coal district rate and furnish a fair distribution of cars. The Redrock Fuel company retains all its legal rights, with the understanding it may furnish the interstate commerce commission and Senator Tamm all the information in its possession and all it can obtain about the alleged discrimination in West Virginia.

The Redrock Fuel company built a tangle, opened mines and built a siding from the tangle to the railroad. It was refused a connection by the Baltimore & Ohio and took the case to the interstate commerce commission, which issued an order directing the railroad company to provide a connection, cars and rates. The latter refused, or failed to comply with the order. Suit followed and the agreement stated that the result. The independent operators will meet here next week to follow up this action, hoping to get similar concessions, failing which they may bring suits.

### Morrison Loses in Argument

Chicago, March 3.—The direct examination of Special Agent Durand was finished in the racket case and the cross-examination begun. Early in the day the attorneys in the case engaged in a sharp argument regarding the propriety of admitting as evidence in the case the names of 300 witnesses, which, the lawyers for the packers contended, had been turned over to the department of justice by Commissioner Garfield. District Attorney Morrison fought hard against the admission of the names, claiming that the government make a search for the names and for all correspondence relating to them.

### Mobilized Necessary, Not Forts

Paris, March 3.—The Journal publishes the result of an investigation made by its correspondents along the German frontier. The paper says the Germans do not desire war, but the German army is ready and its superior mobilization plans permit a rapid invasion of French territory. The Journal counsels the abandonment of French reliance on fortifications and the adoption of the German plan of a rapid invasion of the enemy's territory.

### All Quiet at Springfield, O.

Springfield, O., March 3.—A steady downpour of rain has been falling here and aside from this quiet prevalence, following the two preceding nights of rioting and incendiary fires, troops are still on duty. Police court was in continuous session during the day and a number of rioters were fined. Martin Davis, the wounded brakeman, is still alive.

### Converted to Socialism; Resigns.

Chicago, March 3.—Commissioner of Public Works Joseph Medill Patterson has tendered his resignation to Mayor Edward P. Duane. Mr. Patterson gives as a reason his conversion to socialism. He says socialism, he is convinced, is the only relief from the inequities of capitalism.

### Mrs. Longworth Was Seized.

Tampa, Fla., March 3.—Mr. and Mrs. Nicholas Longworth arrived on the steamer Mascotte from Havana. The steamer encountered rough weather and Mrs. Longworth suffered from seasickness. They left at 8.40 on the regular train for Washington from Tampa.

## FOR WABASH CONTROL.

Heavy Stock Buying in Wall Street Shows Pennsylvania Hand.

### THE OLD CASSATT-GOULD FEUD

Has Broken Out Afresh It Is Said and the Former and His Friends Are Making an Effort to Get Hold of the Controlling Interest.

New York, March 3.—Wall street believes an attempt is being made to wrest control of the Wabash from Gould. Gould's uncommonly eager buying of Wabash securities in the stock market Friday indicated that somebody was accumulating Wabash securities in large quantities. One explanation was that these purchases were being made for the Pennsylvania railroad interests.

Two theories prevail regarding the Wabash situation. One is that Gould has made a harmony agreement with the Pennsylvania by which the latter will have a voice in the management of the Wabash. The other is that the old Gould-Cassatt feud has broken out afresh and that President Cassatt and his friends have come into the stock market to try to buy the control of the Wabash. Ex-President Ramsey of the Wabash is authority for the statement that if Goulds could not much less than half the voting securities.

Prominent stockholders of the Pennsylvania declare the construction of additional Wabash lines through Pennsylvania railroad territory must either be stopped or the last named company must be allowed to participate in the Wabash management. Conservative observers are inclined to believe that eventually these two interests will fuse.

The Gould funders have a particularly determined upon a campaign to plan for the readjustment of the finances of the Wabash railway.

The idea is to refund existing bonds to a very large extent and to provide funds for investments. The main feature of the latter will be the dual tracking of the system from Pittsburgh to Chicago. An issue of 4 per cent bonds which may run to \$100,000 will be announced within a short time.

The striking feature of the plan and the favorable one from the Wabash standpoint, is that it provides for a redemption of the debt to A and B bonds. These securities have for years stood at a discount and are financing by the Wabash management. They do not represent cash paid in and therefore the management has concluded they are not equitably entitled to a share in the new issue of bonds which they call for on redemption at par. It is understood to be the intention to offer \$500 of a new general mortgage 1 per cent bond for each \$1,000 of the debt on B bonds.

### WILL FIGHT GOULD

Evidences Appearing That Pennsylvania Will Oppose Wabash.

Evidences are appearing from various sources that the fight between the Goulds and the Pennsylvania has broken out afresh, the cause of contention this time being control of the Gould lines to obtain terminals in Washington and New York. The Pennsylvania is determined to get into New York over the tracks of the Reading and Shippensburg, Pa., around the toe of the Pennsylvania, and all the influence that can be brought to bear on the Reading management not to consummate such a deal. The Pennsylvania and Baltimore & Ohio are also said to be trying to prevent the closing of a deal reported to be on the line between the Western Maryland and the Uniontown and Wheeling, by which the latter, as we noted some time ago, will become part of the Western Maryland-Wabash connection.

### The Pennsylvania Has Not Given Up

hope of keeping the Western Maryland out of Washington, though Gould has that belief, all but won. Efforts "behind the scenes" are also being made by the Pennsylvania in Pittsburgh to hinder the connection from Chambersburg to Wheeling or Pittsburgh.

### PATRICK HEARING POSTPONED.

Witnesses Are To Be Brought From Texas.

New York, March 3.—[Special.]—The hearing which has been in progress before Recorder Goetz's court to determine whether Lawyer Albert Patrick committed murder of millionaire Rice should have a new trial, was postponed today until April 3 to give him time to bring new witnesses from Texas.

## ARBOR DAYS NAMED

Governor Says Men and Trees Cannot Exist Without Each Other.

Harrisburg, Pa., March 3.—Governor Pennypacker has issued the following Arbor Day proclamation: Since the 17th of January, 1903, the forestry reservation commission have bought 420,726 acres of forest lands, the state now holds in all 753,741 acres of such lands, and this commission is doing much to preserve and maintain our forests and our streams. It behooves every citizen who cares for the welfare of the commonwealth to lend assistance and to give encouragement to this important work. The lives of men and of trees are so interwoven that without the other neither can exist. The growth of the state must be both happiness and benefit to mankind.

In order that all of our citizens—men, women and children—may participate in the pleasure and profit of the forestry reservation, the governor, by proclamation designating Friday, the 6th day of April, and Friday, the 30th day of April, A. D. 1936, to be observed as Arbor days throughout the commonwealth.

Two days are set apart in order that whatever may be best suited to the climate of the locality may be selected.

"Callahan," he yelled in his ear, "your's better off!" And Callahan thought he heard, in the pond at the rear, catch the words, and he laughed because Halley derisively laughed. Then yelping around to the right, he saw a man covered with mud and his fingers on the throttle latch and the

## SEED GRAIN DAY.

April 11 is the Day Set for District North of the Ohio.

Corn, "king of grain," has issued an official proclamation that every school throughout the land shall observe Seed Grain day in April. South of the Ohio river, April 4 is the day; north of that line, April 11, or as near those dates as possible.

All children are requested to at once select seed grain. To do this take two dinner plates and two pieces of thick cloth or blotting paper the size of the inner part of the plate. Wet these thoroughly and drain off the extra water. Put one piece of cloth on the plate and scatter the grain over it evenly and cover with the second cloth. Turn the other plate over it to prevent evaporation and set in a warm place. Examine frequently and if it grows dry add a little water. After six or eight days remove the cloth and determine the percentage of germination.

To test kernels from several ears of corn in the same place, mark off the blotting paper into squares and number each one to correspond with the ear from which the kernels are taken. Report results of testing school or Seed Grain day. Away bring to school a sample ear of 100 kernels of corn or other grain seed to study their good and poor points, tell which varieties are best and why, figure difference in and cost and profit of good vs. poor yields, or carry out any of the many plans for the day suggested in the proclamation which may be had free by writing King Corn, 439 Lafayette street, New York City, N. Y.

A young folks' grain club is to be organized by the boys and girls of each school or district, and a harvest festival is to be held next autumn by each school, for which many valuable prizes are offered. The state of Colorado gives \$2,500 in special prizes, Minnesota a like amount, other states are officially promoting the idea in various ways, and the children may also compete equally with the grown-ups in the contest to add millions to grain growers' profits. This plan adds new fascination to nature study and introduces agriculture into the schools in a most interesting and practical way.

## THE NEWS OF DUNBAR.

Alfred Beals Wanted on Two Charges Arrested Friday Morning.

## ACCUSED OF ROBBING A STORE.

Bright Local and Personal Chat and Brief Paragraphs Picked Up by The Courier's Correspondent in the Furace Town.

Dunbar, March 2.—Alfred Beals, a young man of this place who has been wanted by the officers here for the past several months on two charges, was arrested here yesterday morning. One of the charges for which he was arrested is being implicated in the robbing of the store of Peter Johnson at this place a little more than a year ago.

He is also charged with carrying concealed weapons. In the former charge a true bill was found against the young man at a criminal court of last year, but he never had his hearing. Some Beals had been finding the officers for several months, but it was feared that he had returned here and had accepted a position with the Dunbar Prison Company. Upon learning of this fact the officers went and placed Beals under arrest. He was taken to the lock-up for a few hours and was then taken to jail at Uniontown. He will be given a hearing for carrying a concealed weapon Monday of next week. The other charge against him has not yet been passed the grand jury but it is not doubt he given a hearing in court during the present term.

Lawrence Callahan, a popular young man of this place, is now taking about with his left eye bandaged up as a result of having met with a slight accident while at his work at the mill on Wednesday of this week. Lawrence was struck quite a blow over the eye, which, however, at the time he paid little attention to. It began to give him considerable pain and a doctor found it necessary to have the eye treated.

There was a lady in town a few hours Thursday evening, but none of the boys to whom they were going to be introduced by Mrs. Carrie Nation. They were led to think so by the fact that she was seen going into the bar room, and did not go to the smoking place, and so nothing to cause a commotion, but was only engaged in disposing of small trinkets containing poems and short verses on the evil effects of the liquor trade and the liquor habit. The lady did not give them away, but charged the sum of five cents each.

It is said that one of our leading business men, was among the men from this place who were transacting business in Connelville.

A man was here the past few days engaged in gathering up a number of men to take to a town where there are several brick industries and where there is a shortage of workmen. He secured 20 men and left yesterday afternoon. The fact that the brick plant had burned down led them to send to this place in search of men who had some experience in the operation of brick plants. It is no doubt a very fortunate thing for some of the men who were suddenly and unexpectedly thrown out of employment.

Mrs. John N. Pott and two children left last evening over the Pennsylvania railroad for Chicago, at which place she will visit with her sister before she goes on to Tacoma, Wash., where they will make their future home. Mr. Pott remained to look after the shiping of their household goods.

Mrs. May Engles was given a hearing before Squire D. K. Cameron on

Thursday upon an alleged charge of assault. Upon the suggestion of Prof. J. S. Carroll, upon whose daughter the assault had been committed, the charge was withdrawn, and upon the payment of the costs by the defendant the woman was allowed to go.

Mrs. Lizzie Patterson, who was called to New Castle several weeks ago by the serious illness of a nephew, returned home Friday.

Rev. Stephen of Connelville will conduct the services in the Presbyterian Church Sunday morning and evening.
